The Royal Economic Society (incorporated by Royal Charter, 1902) was founded, under the name of the British Economic Association, at a meeting held at University College, London, on November 20th, 1890, the Right Hon. G. J. Goschen, M.P. (the late Viscount Goschen), in the Chair.

The Society has for its object the general advancement of economic knowledge.

The Journal of the Society, published quarterly by Messrs. Macmillan and Co., Ltd., London, and sent post free to Fellows, is intended to represent the various shades of economic opinion, and to be the organ, not of one school of economists, but of all. The Journal numbers among its contributors the leading economists of all countries. Fellows are entitled, in addition to the Journal, to copies of sundry other publications issued by the Society from time to time.

By arrangement with the London School of Economics, Fellows of the Royal Economic Society may obtain from the Secretary a card entitling them to the use of the library of this institution.
